Recommendations

Andreas Roman, Creative Director, Grin

"Gabriel's got a style of his own, essential when it comes to animation. Not only does he understand and take direction well, he adds his own flavour to the result and improves on an idea through his high animation skills. Whether it's an emotion that needs to be conveyed, an attack pattern that needs to be built or perhaps just a leap or a dive, Gabriel makes it into something unique and thereby contributes to the voice of the game - invaluable to any title that wants to stand out."

Eric Thelander, Senior Animator, Grin

"I've known Gabriel for the past four years and I only have good things to say about him. He is ambitious self going and resourceful when handling tasks of different proportions. He has an ability to produce smooth and flowing animations on the spot, nailing timing as if it was the most natural thing to do. When working in groups he is open to try out new techniques and procedures while at the same time is good at making suggestions on how to improve work flow.

Gabriel is a social guy, nice and helpful and you cannot feel other than good in his presence."
